

LOGO.

Quick start

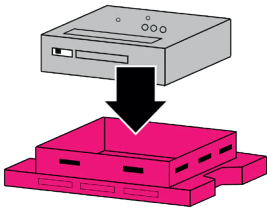

1. Activate the device first!

Use the included pin to slide the switch from **right** to **left**.

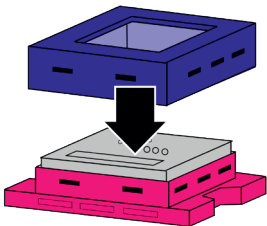

Does the **red** light flash briefly?
The device has been activated!

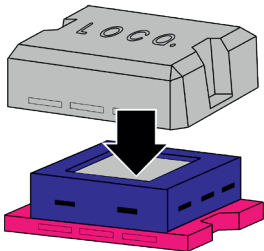

2. Place the device in the holder

3. Slide the rubber sleeve onto the device

4. Are you sure the device is on? Close the Loca!

5. Download the Loca app

1. Find "Loca" in your App Store and download the Loca app.

Or go to **Myloca.eu**

2. After downloading, follow the steps in the wizard.

Your Loca is now ready for use!

Installation

Make sure the Loca logo faces up for optimum connection.

Loca is not suitable for tracking people or animals.

Do not place your Loca directly behind a metal object. Loca was developed for outdoor use. In case of indoor use, the Loca will be far less accurate.
